

# EQUI-TILE

## Equestrian Safety Tiles

## Enhanced cushion and better traction with Equi-Tile

Provide unmatched safety and comfort for your horses and livestock. Made from 100% recycled rubber, these one-inch thick, interlocking tiles provide a slip-resistant, anti-fatigue surface when wet or dry. Choose this superior, eco-friendly alternative to traditional flooring materials for better cushion and traction, all while reducing injury and bedding costs.

## Features and Product Highlights

- Superior design – exceptionally durable and resilient; water permeable and fast drying to prevent rot and insects
- Slip resistant – wet and dry
- Easy installation with modular design – fully-adhered or floating applications for barns, wash racks, stables, breezeways and all other traffic areas
- Safe - non toxic and certified 100% steel free
- Eco-friendly – molded from 100% post-consumer waste tires, each tile diverts up to 1 tire from our landfills
- Easy maintenance – requires only basic cleaning with a vacuum, broom or standard garden hose
- Long Lasting – water permeable and fast drying. Won't rot, decompose or attract insects
